### C. of C. to Campaign for Good Roads Amendment

Tuesday noon at the Chamber of Commerce luncheon, Mr. C. G. Cochran suggested that the Chamber of Commerce organize the townships of Ellis County and endeavor to carry the county for the Good Roads Amendment. Automobile shield tags and watch fobs bearing the slogan, "Lift Kansas out of the Mud," and other advertising matter will be distributed widely over the county next Good Roads meetings held in each community. Once the people thoroughly understand the amendment there is no doubt of its being voted for but it is feared that many do not understand just what the amendment means, and a big drive is necessary if the people are all to be acquainted with the real import of the amendment.

## America's Greatest Need

America must increase its dairy herds. There are only 24,000,000 milch cows in the United States today, as compared with 35,000,000 in 1914. Dairy cows by the millions have been slaughtered for food, by Denmark, Sweden and Norway particularly. All Europe's dairy herds have been sadly reduced.

This country must provide and sell dairy products to all Europe. We need more than 45,000,000 milch cows to do this adequately.

The farmer who increases his dairy herd now is not only doing his duty to the world, but is certain to profit in a big way.

This should interest this community. Is it going to benefit by owning more and better dairy cattle? We have the land to feed them on, we have the brains to care for them and take the profit. THIS bank has the money to finance their purchase if our assistance is needed.

Come in and let's talk this dairy problem over.
